

EJE CAFETERO · COLOMBIA · MEDICINAL CANNABIS

GROW WITH BACKING

Regulated agricultural infrastructure for the global medicinal cannabis
market

§ 01 — MANIFESTO

NATURE. SCIENCE. EVOLUTION.

Cannacore is regulated agricultural infrastructure. Not another cannabis company: a legal productive network that integrates Colombian growers into the global chain of certified medicinal cannabis.

We develop genetics, provide legal cover, transfer technical protocol and guarantee the purchase of every harvest. The grower brings land and labor; Cannacore brings the infrastructure that turns it into exports.

We do not celebrate consumption. We are building an industry —traceable, scientific and regulated— from the Colombian Eje Cafetero out to the world. That is the evolution we propose: from isolated cultivation to the network.

CANNACORE PHILOSOPHY

“Nature has memory. Cannacore builds on that rhythm: with science, with respect, and with global vision.”

Nature. Science. Evolution. — From the root to the future.

§ 02 — THE MODEL

WE DON'T SELL PLANTS. WE SELL ACCESS TO THE MARKET.

Cannacore is the infrastructure that connects Colombian growers with certified international buyers in Europe and Australia.

THE VALUE CHAIN

01	GENETICS	Cannacore develops and supplies certified medicinal varieties.
02	LICENSE	You produce under Cannacore's legal cover. No paperwork of your own.
03	PRODUCTION	Technical protocol and permanent agronomic support in the field.
04	TRACEABILITY	Real-time digital platform under the international GACP standard.
05	EXPORT	Cannacore buys, certifies and exports your harvest to the global market.

DIGITAL TRACEABILITY

Real-time tracking. A requirement of certified buyers in Germany and Australia.

AGRONOMIC SUPPORT

Specialized agronomists. Advisory, audits and yield optimization every cycle.

INTERNATIONAL MARKET

Your production reaches Europe and Australia. Cannacore manages contracts and logistics.

§ 03 — EJE CAFETERO, COLOMBIA

THE TERRITORY

THE LAND
OF COFFEE

Cannacore operates in the heart of the Colombian Eje Cafetero — Caldas, Risaralda and Quindío — and the northern portion of Valle del Cauca bordering the region.

A century of mountain-slope coffee farming left an inherited know-how: reading altitude, water and light as exact variables. The same mountain climate that made Colombian coffee famous allows the production of certified medicinal cannabis at a fraction of the cost of competing countries.

4°32'07"N · 75°40'51"W

FIG. 01 — REPUBLIC OF COLOMBIA · CANNACORE PRODUCTIVE CORE

-  EJE CAFETERO CORE — Caldas · Risaralda · Quindío
-  ADJACENT ZONE — Northern Valle del Cauca
-  OPERATING HUB — Quindío · 4°32'N · 75°41'W

ALTITUDE	1,400 – 2,000	M.A.S.L.
TEMPERATURE	18 – 24	°C YEAR-ROUND
RAINFALL	≈ 2,000	MM / YEAR
SOILS	ANDISOLS	VOLCANIC ORIGIN

§ 04 — THE MARKET

COLOMBIA HAS WHAT THE WORLD **NEEDS.**

Medicinal cannabis is the agro-industrial opportunity of the decade. Colombia combines climate, cost and legal framework to lead it — and Cannacore is the way in.

\$70 B

GLOBAL MARKET 2030

Medicinal cannabis with 14–18% annual growth. The fastest-expanding regulated industry of the century.

60 %

LOWER COST VS CANADA

Colombia produces certified cannabis at a fraction of the cost of competing countries.

18–24°

EJE CAFETERO CLIMATE

Ideal temperature year-round. Biodiversity and a generational farming culture.

2016

LEGAL FRAMEWORK · LAW 1787

Pioneering legislation in Latin America. Dried-flower export to Europe and Australia.

— WITHOUT CANNACORE

ENTRY BARRIERS.

- ✗ Own legal procedures and registrations — 12 to 18 months
- ✗ Genetics without certification or traceability
- ✗ No guaranteed sales market
- ✗ Export dependent on intermediaries
- ✗ Legal and commercial risk borne by the grower

— WITH CANNACORE

YOUR LAND. OUR LICENSE.

- ✓ Legal operation from the first cycle
- ✓ Certified, selected Cannacore genetics
- ✓ Guaranteed purchase at €2/g by signed contract
- ✓ Direct export to Europe and Australia
- ✓ Protocol, audits and technical support

9 06 — WHAT YOU GET

YOUR MEMBERSHIP IS A COMPLETE SYSTEM.

You don't hand over your crop to a vendor: you receive the complete infrastructure to grow with backing.

01 UMBRELLA LICENSE You produce under our legal cover. No paperwork of your own. Legal operation from the first cycle.	02 CERTIFIED GENETICS Cuttings of Cannacore varieties: high yield and defined cannabinoids, adapted to the Eje Cafetero.	03 DIGITAL TRACEABILITY Real-time tracking platform under the GACP standard. Included in every plan.
04 TECHNICAL PROTOCOL Complete guide for irrigation, nutrition, photoperiod, harvest and post-harvest from the agronomy team.	05 AGRONOMIC SUPPORT Specialized agronomists: ongoing advisory, field audits and yield optimization.	06 GUARANTEED PURCHASE Signed contract. €2/g of certified dried flower, at a fixed price. No commercial risk.

§ 07 — PRODUCTION CYCLE

FROM SEED TO EXPORT.

01 1-2 WK CUTTING Rooted cuttings of Cannacore varieties. Certified and selected genetics.	02 4-8 WK VEGETATIVE 18 h light / 6 h dark. Structural growth. Fertigation per protocol.	03 8-12 WK FLOWERING 12/12 photoperiod. Bud formation. The stage of greatest technical attention.
04 1-2 WK MATURATION Trichome reading under loupe. Root flush. Harvest preparation.	05 2-4 WK HARVEST Cutting, drying and curing at 50–60 % humidity. International GACP standard.	06 €2 / G DELIVERY Cannacore picks up, certifies, pays and exports to the global market.

4-5 MONTHS PER CYCLE	2-3 HARVESTS PER YEAR	150 G+ PER PLANT • OPTIMAL
--	---	--

§ 08 — GUARANTEED PURCHASE

CERTIFIED DRIED FLOWER · EVERY CYCLE

A large, bold graphic showing the price '€2 / GRAM'. The '€' and '2' are in a bright yellow color, while the '/' and 'GRAM' are in white. The '2' is significantly larger than the other elements.

Cannacore guarantees by contract the purchase of all certified dried flower produced by every network member, at a fixed price of two euros per gram.

01

NO MARKET RISK

The price doesn't fluctuate. You know the value of your harvest before planting your first plant.

02

PAYMENT BY CONTRACT

Signed purchase agreement for the agreed period. Settlement after each certified harvest.

03

CANNACORE EXPORTS

We pick up, certify and take your production to the global market. You grow.

€2/G GUARANTEED · GROW WITH BACKING · PRODUCE FOR THE WORLD · €2/G GUARANTEED · GROW WITH BACKING · PRODUCE FOR

CHOOSE YOUR TIER. GROW WITH BACKING.

Four levels of integration into the network. All include genetics, license, protocol, traceability, agronomic support and guaranteed purchase.

NOTE Farm Partner (500+ plants) is subject to negotiation with Cannacore and crop availability. Gross revenue is a projection that depends on the conditions of each cycle.

5 STEPS TO PRODUCE WITH BACKING.

01 APPLICATION & VERIFICATION

You complete the form. We verify your property and your technical capacity.

02 CONTRACT SIGNING

Membership and guaranteed purchase agreement at €2/g for the agreed period.

03 GENETICS & PROTOCOL

You receive rooted cuttings, technical guide and access to the traceability platform.

04 CULTIVATION WITH SUPPORT

You grow under the Cannacore protocol, with audits and permanent agronomic support.

05 HARVEST & PAYMENT

Cannacore picks up, certifies and pays €2/g. We handle the export.

ARE YOU ELIGIBLE?

■ Identity document

Valid national ID or equivalent document.

■ Verifiable location

Property with coordinates, preferably in the Eje Cafetero.

■ Cultivation space

Outdoor, covered or greenhouse, depending on the chosen plan.

■ Water access

Available source for irrigation per the plan.

■ Basic connectivity

Internet for the traceability platform and support.

■ Commitment

Exclusive use of Cannacore genetics and full traceability.

JOIN THE CANNACORE NETWORK

GROW WITH BACKING.
